- Maintainable front-end architecture
- Performance & user experience
- Modern & accessible interfaces
- Autonomy & problem solving
- Communication & teamwork

LANGUAGES

English · professional (C1)

German · intermediate

BASTIEN AUTEM

FRONT-END DEVELOPER

REACT · NEXT.JS · TYPESCRIPT

PROFILE

Front-End Developer specialized in React, Next.js and TypeScript, I build modern, high-performance and maintainable interfaces. Curious and autonomous, I enjoy solving complex problems, optimizing user experience and contributing to ambitious web projects.

PERSONAL PROJECT

CYCLONE

NEXT.JS 15 · REACT 19 · TYPESCRIPT

- Real-time social application inspired by Discord, designed and built end to end.
- Responsive interface, profiles, posts, interactions and modular architecture.
- Real-time communication with LiveKit, with continuous work on performance and reliability.

PROFESSIONAL EXPERIENCE

Full-Stack Web Developer

HOFFMANN AI · 6 MONTHS

- Developed features and designed APIs to enhance the application.
- Strengthened security and managed translation and currency contexts.
- Optimized performance and improved loading times.

JavaScript Developer · Bubble

PREPERA · 1 MONTH

- Implemented pages and user journeys on a low-code platform.
- Developed custom JavaScript plugins and leveraged Bubble workflows.

EDUCATION & CERTIFICATION

Professional Title - Web & Mobile Web Developer

O'clock · Remote training · Level 5 (2-year higher education diploma)

- Web fundamentals (HTML, CSS, JavaScript, PHP, API) - React specialization - Final project

Opquast Certification - Web Project Quality Management

SCORE: 740 / 1000

Available for a Front-End React / Next.js role - full remote
